PUBLIC SAFETY MEASURES

Red Cross Chairman Resigns

It is right for the people of Norway and those outside of Norway, who belong to the Norway Red Cross Auxiliary at Large, to know just how the money which they give for supplies has been expended. The women have made and shipped 108 surgical shirts, 42 convalescent robes, 74 ambulance pillows, 117 splint pillows, 906 ockum pads, 51 pair pajamas. These supplies have been valued at $360.75.

Stephen Cummings and Geo. Cullinan have given their services with their autos for all Red Cross work done outside of the village, except for the trip made to Augusta in the interest of the Red Cross. This bill I paid myself. I have paid for all long distance telephone messages in the interest of the Red Cross. I make this statement to do away with any doubt which may exist in the minds of some that the money contributed may not be wisely spent.

The list of names and amount of money contributed for the War Relief Fund will be published as soon as possible.

It has been my desire to keep the Red Cross rooms open every day in the week except Monday in order that all out of town workers may bring back work taken out and take out work to be done in their home town. I also feel that the public should have a chance to inspect the rooms, with some one present to show them the work being done. There is also much cleaning up to be done after sewing days. I am so situated that I would gladly give my time and stay at the Red Cross Headquarters. However most of those with whom I have talked do not think it necessary to keep the rooms open other days than Tuesdays and Thursdays.

As the work is all under way with competent committees in charge and an expert accountant and accountant for secretary, I feel there is no more work for your present chairman to do.

I am very proud to belong to such a flourishing organization as Norway has. I feel that the success here is due to that spirit which prevades the community of rising to meet any demands which are made of them, the perfect harmony which prevails and the desire on the part of the women to sacrifice pleasure and perhaps some home duties to do the work which is so greatly needed is wonderful. If everyone could feel that perhaps an hour's time given to this work might save one or more human lives, I am sure no one would hesitate to give some of her time.

I have passed in my resignation to the proper authorities, but shall continue to help whereever I am wanted. I shall devote all my spare time and strength to Red Cross work as long as the war lasts. I know you will have as my successor one who can advise better and do far more than I have done.

Elinor H. Jones,
Chairman Norway Auxiliary at Large.

Help a Farmer

The President of the United States says "I call upon young men and old alike and upon the able bodied boys of the land to turn in hosts to the farms and make certain that no pains and no labor is lacking in this great matter."

Retired Farmers, Husky Young Men, College Students, City Men from the Country all these not called for military training are asked to merely give a little time and labor, a part of vacation or a few days spared from business for their country by helping out the farmer.

The women can help by aiding the farm women cook for extra hands on the farm while the boys and girls can pick sort and pack fruit and vegetables, can or dry surplus products, fight weeds and do light tasks that take the time of the farmers and will release the men for heavy farm work.

A farmer expects you! If you do not know him, talk with the local public safety committee and they will gladly give names of farmers who are looking for just such "willing workers."

Old Gloves Will Protect Soldiers

Save your old gloves. Give those you may now have to provide wind-proof waist-coats at a few pence for soldiers and sailors; to employ useful work women distressed through the war, and unable to go into workshops; to utilize for these purposes in the interest of national economy material hitherto thrown away.

One of the greatest hardships of a winter campaign is the suffering caused by icy winds on sea and land. Leather is the only protection but is generally beyond the means of those who need it so sorely. The glove-waist society has solved the difficulty of supplying leather coats by utilizing cast off gloves, kid, suede, etc. Those materials are appliqued by machine onto a brown linen foundation, making an entirely wind-proof waist coat, weighing, if of old gloves, from 7 to 9 oz. The work has been carried on in England since the beginning of the war for the benefit of soldiers and sailors and the waist-coats are in such demand by both officers and men alike that the society does beg most earnestly for supplies of gloves, etc., to enable them to "carry through."

The finger tips are converted into glue; the glove buttons are sewn on cards by children; the cuttings from waste leather linings are strung into household rubbers; the large linen cuttings are made into dust sheets; the small cuttings form stuffing for mattresses for Infant Home at Finchley. Many people have adopted this idea and make waist-coats themselves, but have overlooked the important point. That the Society's scheme gives paid employment to distressed workers, and contributors may be assured that their help means Work for a Woman and Warmth for a Man.

So please do send as many old gloves as you can collect, no matter how worn, how soiled, or how torn, to the store of Clinton S. Masseck, 164 Main street, Norway, Maine. They will be promptly forwarded to the headquarters of the society in Boston.

The Frank H. Noyes Co. are moving their clothing stock into the Noyes block store, formerly occupied by Fred A. Cole as, extensive repairs and improvements are to be made at the Blue Store.

Florence Savage of West Medford, Mass., is visiting her grandmother, Mrs. Mary Oxnard.

A Plea for the Chautauqua

An association composed of about ninety men, citizens of South Paris and Norway, are behind this movement. We are bringing to this community some of the best talent in America at such a small price for the tickets that they are within the reach of nearly every one.

Last year these men put in a lot of hard work, paid for their tickets, and also made up the deficit at the close of the Chautauqua. This year, as last, we have guaranteed the sale of 500 course tickets at $2.00 each. If these are not sold we are pledged to make up the deficit as before.

It goes without saying that the Chautauqua is the best thing of the kind that could be brought to a community like this. If these pledged tickets are sold, the Chautauqua will be a success and will doubtless become an annual affair. If there is a deficit this year, it will probably not be brought here again. It is therefore up to the public to say whether or not it shall be continued.

Think the matter over and when you are asked to buy tickets, perhaps you can afford to take a number to present to some one who would not otherwise have the pleasure of listening to these entertainments. It would be much appreciated. The management promise a course even superior to the program offered in 1916. See the program on page 3.

The Chautauqua opens Saturday afternoon, July 28, at 3 o'clock and continues afternoon and evening for five days. Ten splendid entertainments for $2.00. The tickets for children 14 years and under, $1.00. Tickets are for sale by the ticket committee in South Paris and Norway.

The meeting was largely attended and it was one of the many pleasant gatherings of this social club. A vote was taken to take up the Red Cross work at our meetings which will be commenced at the next regular meeting Thursday evening, July 26th, and the club will be entertained at the home of Mrs. Alta Sheen, 16 Pearl street. Members are asked to make an effort to come at an early hour and bring material white or colored, also scissors and thus equipped. material for pillows can be snipped and the club like others, will be doing "their bit" in more than one way. NORWAY MUNICIPAL COURT

Wm. F. Jones, Judge.

Game warden W. H. Barker of West Paris appeared before the court Saturday with Harold Briggs of Paris, charged with the illegal possession of woodcock. Pleaded guilty and paid a fine of $10 with costs. Also Dana Dresser of Paris for Sunday hunting. Pleaded guilty and settled with a $10 fine and costs.

Monday morning a liquor seizure case was heard, the respondent being Walter Walsh who was brought from Fryeburg by Deputy sheriff, Frank F. Woodside. A plea of not guilty to the charge of illegal transportation was entered, but after hearing considerable testimony, it was retracted to guilty. A $200 fine and costs amounting to $18.50 was promptly paid and the respondent discharged.

This closes an exciting episode that included several nights' watchful waiting on a lonely road in Cumberland county; an exciting auto chase resulting in a capture owing to a breakdown near Moose Pond, Fryeburg, and a mix up in the pond, when the outfit was taken in town by the officers. A cargo of 157 pints of whiskey was seized and libeled. It is surmised the stuff was taken aboard at Conway with the intention of quenching thirst in Lewiston.

Observed Ninetieth Birthday

Mrs. Hannah Billings, who lives with Mr. and Mrs. Frank Brett, lower Main street, Norway, celebrated her ninetieth birthday, Friday afternoon. Many neighbors called, offering hearty congratulations and many unable to be present sent a shower of post cards. Light refreshments were served.

Mrs. Billings is the daughter of the late Joseph and Elizabeth Rowe and was born in Oxford, July 13, 1827, on the farm now occupied by Isaac Fox. She lived in that town for sixty years and the remainder of her eventful life has been passed in Norway. She is remarkably active, physically and mentally, retaining all of her faculties to a marked degree. No glasses are required for reading, rug making or sewing. She attends the Norway Methodist church services regularly except during the extreme winter weather, and frequently walks to the Webber school house some three miles, visiting acquaintances. Gardening is a keen pleasure and the hot sun proves one of nature's great medicines. Her mind is active to present events and she lives in touch with modern thought and progress, although early associations with their pleasant memories cannot be forgotton.

Ladies' Circle Held Attractive Sale

The mid-summer sale by the Ladies' Circle of the Congregational church on Eugene N. Swett's lawn, Wednesday afternoon, was largely patronized and a good sized sum realized.

A booth with green and white decorations was well supplied with useful fancy articles, under the care of Mrs. Fred Brown, Mrs. Fred E. Smith, Mrs. Llewellyn H. Cushman, Mrs. George A. Locke and Mrs. B. S. Rideout. The bonnet table offered many stunning inexpensive creations appropriate to every possible summer condition. Mrs. A. J. Stearns, Mrs. Arthur W. Easton and Mrs. Walter F. Tubbs effectively demonstrated the good qualities of articles from this stand.

Patriotic decorations draped by Mrs. Easton were conspicuous in the ice cream parlor, made over from a garage. Matting on the floor and daintily arranged tables offered a tempting shady spot where a varied ice cold menu could be enjoyed at a reasonable price. The list included pineapple, lemon and orange sherbert, strawberry and grapenut ice cream, iced tea and assorted cakes. Those serving were Mrs. Percy H. Nevers, Mrs. Vernal A. Rich, Mrs. Jesse P. Edwards, Mrs. Fred D. Hosmer and Mrs. Frank L. Brett.

Genevieve Barker offered a vocal and instrumental program in the parlor during the afternoon which was one of the pleasing features greatly appreciated by the large number of visitors who enjoyed the rest room on the cool veranda. Victrola selections were included in the programs.

The food table in the dining room presided over by Mrs. John F. Swain, Mrs. George W. Holmes and Mrs. Charles W. Evirs, was liberally patronized and the large supply of home cooked bread, doughnuts, tarts and cookies disappeared quickly. More than $90 was cleared.

Robert N. Millett and family of Springfield, Vt., will spend a part of the summer vacation with Mr. Millett's sisters, Mercy Millett and Mrs. R. O. Porter, and his aunt, Helen Noyes. The high school of which Mr Millett is principal, decided on a Washington trip and raised funds for that purpose, but because of the war this trip was not desirable. They decided to go on a week's autoing tour instead. Mr. Millett accompanied them. This makes his vacation a little later than he planned as he could not leave till his garden was planted and cared for.

Stanley Damon of Springvale was in town recently, the guest of his cousin, Mrs. Charles W. Chick. Mr. Damon was a lining cutter in the B. F. Spinney Co. factory and is employed with the Sears Roebuck Co. doing similar work. He passed several days at his home in Buckfield and at East Winthrop.

Randall O. Porter, publicity agent for the Norway Dollar Day to be held Aug. 11, has started a big drive that should draw people into town on that date. The event is widely advertised, so only a few can plead ignorance after the bargain day has passed.

The H. F. Webb Company anticipate a labor shortage in the fall so are installing four husking machines that will do the work of at least fifty people. Everything is practically automatic and the corn will be handled with little trouble.

Mr. and Mrs. Donald Partridge left for Portland, Wednesday, where they will remain several days.

Dollar Day, August 11

The Norway Merchants' Association held a meeting at Brown, Buck's store, Wednesday evening, to make arrangements for Dollar Day, which will be held at Norway, Saturday, August 11th.

"Dollar Day" is a new feature for Norway. It has been held in other places very successfully and Norway's undertaking will be equally as successful.

Dollar Day in other words is "Bargain Day." All of the merchants who enter into the proposition will have some special bargains featured for that day and a complete list of the merchants who do enter into the dollar day feature will be printed in this paper in the week of August 2. Watch for the ads of our advertisers and note what each one will feature.

Fred S. Brown, Z. L. Merchant, Homer R. Luck and James W. Tubbs is the committee who are securing the list of merchants who will feature dollar day and have special sales. Aid these men by notifying them that you will be counted among the "Dollar Day Merchants."

A special feature in the form of entertainment is being considered and that is an open aid band concert and dance during the latter part of the evening of Dollar Day. If satisfactory arrangements can be made a portion of the new cement street will be specially lighted and dancing will be in order.

Mr. and Mrs. John A. Roberts of Augusta are at their farm at Norway Lake. Mr. Roberts has been suffering with rheumatism for the past three weeks, but is now able to get about on crutches.

On the last Sunday in the month, July 29th, there will be a morning service only. The sermon subject will be: "The Value of Symbols." All members and friends of the Congregation are urged to attend these closing services of the church.

C., where his case will be taken up. Mr. Dyer is a British subject, but has been unable as yet to secure legal U. S. citizenship owing to minor technalities. He reasons that England will probably get him in their draft, so prefers to go with an outfit composed of home boys under the Stars and Stripes. Alfred served in Co. D on the Mexican border and received an honorable discharge early in May because of dependents when the company were mustered into the Federal service.

SOUTH PARIS

Snow-Gould

Wednesday evening at 8 o'clock, July 11th, at the home of Mr. and Mrs. Everett Abbott of South Paris, a very pretty and quiet wedding took place when Mrs. Abbott's daughter, Edna D. Gould, and Robert H. Snow, were united in marriage by Rev. C. G. Miller.

The couple stood under a canopy formed of red, white and blue ribbons pending from a central bell of snowy white, and hooked back with red and white roses.

The bride's gown was of white lace voile with trimmings of white tatten. The double ring service was used, little Cecil Abbott was ring bearer.

The National Colors were in honor of the groom who is a member of the Norway Hospital Corps that expects to be ordered to mobilize on the 15th of July to go into training for service in France. Only the nearest relatives were present and after the ceremony a social hour was enjoyed with music from the Victrola. Ice cream, cake, fruits, were served and the guests departed happy in giving all good wishes to the newly wedded couple.

Rae L. Newton of South Paris and Eva D. Studley of Rockland, were married in Portland on the 25th of June. Mr. Newton is the son of Mrs. George L. Davee of South Paris, is a graduate of Paris High school and well known in musical circles, where his services have been in especial demand for orchestra work. He is employed on the electric road in Portland.

Mr. McWhorter is to take the pastorate of a church in South Lawrence, Mass., which includes a large field for usefulness.

The departure of Mr. McWhorter is a loss to his church and to the community. He has been not only a good pastor, but a public-spirited and useful citizen, interested in civic affairs and all good movements and working for the moral and spiritual welfare of the community. He has been here about ten years. Mrs. McWhorter also has been an active worker in several lines of endeavor for the public good, and will be missed by all.

Work Begun Improving Bowker Farm

The Paris Manufacturing Co. started this week to convert the Oscar F. Bowker field on Nichols street into a small village. A crew from their mill in Crystal N. H. arrived late last week and made their camp arrangements on the lot, including a cook and mess house, with tents having wooden floors and half walls for sleeping quarters. Water has been piped from the main to the camp site. Several teams and crews are making a start by changing the course of Nichols street or Elm Hill road opposite the Bowker cottage, to cross the fields following the ridge, there swinging south to meet the original road in the hollow. When completed the grade will be no heavier than the old highway.

This change offers additional land for a survey calling for 30 cottage lots with lawn and garden space. Work has already commenced on one basement for a cottage, the main part to be 28x30 situated in the Penley field above John Everett's residence. Probably six houses will be constructed before cold weather and should prove attractive inducements for desirable workmen to settle in this village. It is understood that Clarence Morton is the prime mover in this reality deal and conceived the idea of opening this tract for the benefit of his company and the town.

Potato Industry Revolutionized

Several South Paris citizens have planted a "potato pen" on trial, yet appear somewhat skeptical as to big returns later.

The idea originated in the fertile mind of R. E. Hendricks of Kansas City, Mo. it is claimed, and the strange method has spread rapidly over the country. Intensive planting is the keynote, so if successful, any person can run a five acre potato farm on a small front lawn and chuck the Aroostook combine into the poor house.

L. M. Tufts, Nichols street, South Paris, studied the plan carefully, then started experimenting June 26. He made a slatted pen 4x4 and planted the quartered tubers in rows, as in any garden. A layer of earth came next, then a thin coating of dressing, above this was placed more earth then more potatoes. Ten alternate layers followed one above the other until half a bushel of Green Mountain seed had been buried in the mound. Straw was used around the sides and between the last four courses although nothing was said of its use in the original description.

On July 18 this strange garden was investigated and the top showed a flourishing stand. Vines were growing out in places between the slats but just what has taken place within the pile is a mystery. The inventor claims a small amount of seed will bring forth 25 to 40 bushels by this method, and the harvesting expense is practically nothing. Just remove each layer then rake out nice mealy goods as you progress. Ed. N. Anderson is trying the same experiment and thus far the proposition appears to be a winner. George Ayer has a bed about 6x8 near the Sled Factory on Geo. R. Morton's land that shows green through the crevises. Farmers are watching this method with considerable interest, however, few are willing to gamble heavily on futures and honestly confess they are from Missouri.

The Fan Tan Club chose officers, Saturday evening and made arrangements for its field day, which will be held in Mrs. Bean's grove on the 26th. The club rooms will be given up as they are to be occupied by Mrs. Cora Briggs and Mrs. Linder. The club officers are:

Pres.—Mrs. Cora S. Briggs.
Vice Pres.—Mrs. Lena Porter.
Sec.—Mrs. Virgie Wilson.
Treas.—Mrs. A. E. Forbes.

"Observers of Wind and Weather" will be the subject of Rev. A. T. McWhorter's discourse at the Congregational church next Sunday morning.

IT IS SERIOUS

Some Norway People Fail to Realize the Seriousness of a Bad Back.

The constant aching of a bad back,
The weariness, the tired feeling
The pains and aches of kidney ills
May result seriously if neglected.

Dangerous urinary troubles often follow.

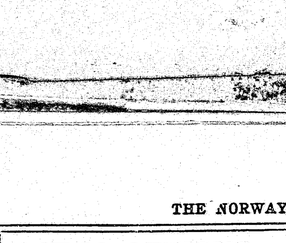

A Norway citizen shows you what to do.

M. M. Kilgore Danforth St., says: "I had backache and rheumatic pains for more than a year caused by disordered kidneys. My kidneys were acting irregularly all the time and I was so lame and sore across the small of my back I could hardly stand up. At night I rested but little and was feeling miserable much of the time. I finally got Doan's Kidney Pills at F. P. Stone's Drug Store and a few boxes cured me." (Statement given July 24, 1908.)

Permanent Results

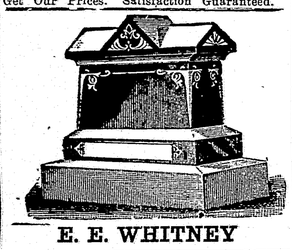

On June 7, 1916 Mr. Kilgore said, "I gladly continue recommending Doan's Kidney Pills. The cure they gave me has proven permanent."

The Chautauqua's offering in Music

Every day of the Chautauqua brings a new offering in music.

Eliminate everything else from the program and we have, standing out in bold relief, a great five day musical festival.

Here's the list. Study it over, and if you like music, which, of course, you do, plan today to hear and see these five great musical attractions, these outstanding features of a most eventful week.

FIRST DAY

The Mendelssohn Sextette: A singing orchestra of six girls in several changes of striking costumes. They will appear in full concert in the afternoon and as a prelude at night. Their music will be full of patriotism.

SECOND DAY

The Boston Musical Entertainers: A company of four artists as follows: Mr. and Mrs. Harry Pierce of the famous Pierce School, in Boston; Grace Sage, William Griffith and Edward Stallings. All are musicians and entertainers.

THIRD DAY

The Tschaikowsky Quartet: Headed by Leon Weltman, Russian violinist and former director of the Manchester (England) Symphony Orchestra.

FOURTH DAY

The Royal Blue Hussars Band: One of the most spectacular bands in America. They are directed by Signor Louis Castelucci and appear in the striking costumes of the blue Hussars. They will appear in full programs both afternoon and evening.

FIFTH DAY

The Kaffir Singing Boys: The most unusual attraction in America. They came from the heart of Africa. They have sung before the king and queen of England by royal command and sang to 60,000 in London and 40,000 in Liverpool. They have toured America, appearing in every large city and at the largest Chautauquas throughout the country. They appear in native costumes, wearing the skins of the cheetah, leopard and other African wild animals.

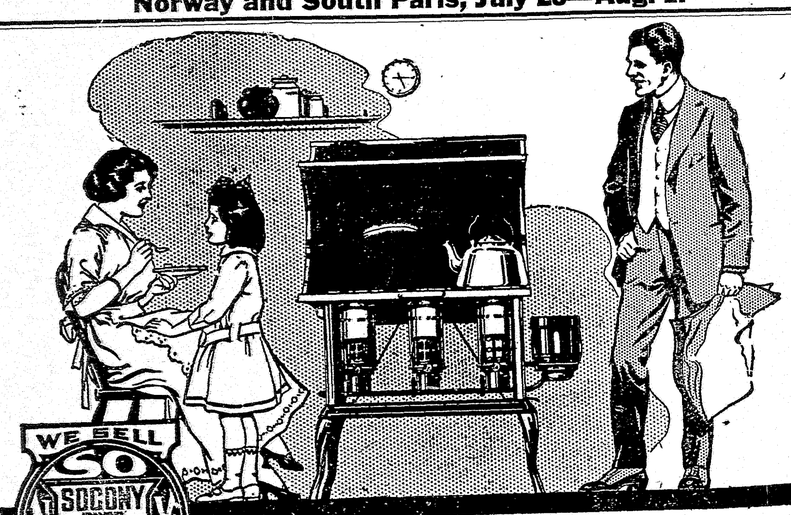

GET SEASON TICKETS

What you need is a season ticket for each member of the family. They bring the cost way down, and they apply directly on the guarantee made by the local Chautauqua committee. Get these today.

Reading of Mrs. Bertha Pendexter Eldridge

Norway people will remember the excellent readings of Mrs. Bertha Pendexter Eldridge, which she gave here a few years ago. She gave an entertainment, July 14th, at Niagara on the Lake for the soldiers at Fort Niagara.

The affair was at Queens' Hotel and was attended by the soldiers, their wives and sweethearts and was a very brilliant and enthusiastic event.

Mrs. Eldridge, who is one of the most talented readers in the United States, received great applause and appreciation from the soldiers and their families. Fort Niagara is called the "Millionaire Camp"—so many of the young officers come from the wealthiest families of Pittsburg and Philadelphia. Their mothers and sweethearts are boarding at the hotels in Niagara Falls, ready to celebrate every leave-of-absence their soldier boys have.

In one reading Mrs. Eldridge carried the stars and stripes as if they were a precious bouquet and recited "The Flag," waving the banner at the last, when every soldier rose in salute!

HANOVER

Mrs. L. B. Barker is the guest of C. F. Saunders and family.

Mrs. J. J. McPherson has been visiting relatives in Rumford.

Wilfred Kilgore is working for C. F. Saunders peeling pulp.

Mrs. Will Warren of North Anson has been the guest of relatives in town.

Mr. and Mrs. Cheslie Saunders recently made a trip through the White Mountains to Lawrence, Mass., returning by the way of Portland.

L. A. Roberts and family are enjoying their new Overland car.

Bear River Grange

Bear River Grange held its regular meeting July 7, at 8:40 P. M. Worthy Master filled vacant chairs as follows: Over., A. E. Bailey; Chap., Addie Saunders; Stew., W. D. Kilgore; A. S., Darwin Sweatt; L. A. S., Selma Smith; Ceres, Maud Bailey; Flora, Cora Davis; G. K., Ezra Chapman.

Voted to give the use of the dining hall and kitchen for a canning demonstration. Voted to have Children's Day Saturday afternoon, July 14, at 1:30. Committee on entertainment, Addie Saunders, Cora Davis and Susan Wight. Committee on refreshments, Maud Bailey, Nellie Holt and Carrie French.

There were 16 members and 2 visitors present. The Literary Programs consisted of the reading of an article regarding the canning demonstration by Cora Davis and remarks on his trip to Massachusetts by C. F. Saunders, songs by the Grange.

WEST PERU.

Mr. and Mrs. Magoon of Dixfield are visiting their daughter, Mrs. Gerald Tracy.

Nathan Flagg is at work for Ernest Sturtevant.

Lynus Libby will work for Charles Tracy in haying.

Ernest Sturtevant was in Rumford on business, recently.

Robert Chase has been entertaining the measles.

Mrs. Alton Lovejoy, who has been staying with her parents, Mr. and Mrs. Alfred Hammond, has returned home.

Mrs. L. K. Lovejoy remains about the same.

A heavy thunder shower, accompanied by wind and hail, passed over this section Saturday night, damaging the crops badly in some places, and doing little or no damage in other parts of the town. Among those whose crops suffered are J. C. Tyler, Ernest Sturtevant, L. K. Lovejoy and Charles Tracy.

Job Morrill lost four yearling heifers recently, finding them dead in the pasture.

Strawberries are plentiful and of large size, and "going strawberrying" is the order of the day.

WEST BUCKFIELD

Mrs. W. L. Fogg spent Saturday at North Buckfield with her aunt, Mrs. Celia Dunham.

H. W. Phillips has commenced to harvest his strawberries.

Gerald Briggs is taking some nice berries to Paris.

Mrs. Everett Harlow and children and Mabel Pearson came to J. V. Pearson's from Ridlonville, Friday.

Mrs. Will Moore and children returned to her home in Norway Saturday. Her sister, Ethel Bradbury, went with her.

Albion Richards is working for W. L. Fogg.

Mr. and Mrs. Harry Buswell were at P. C. Heald's at North Buckfield, Sunday.

Mrs. Dana Goff and Fannie Harlow were guests at Alison Elwood's last week.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

J. R. and D. S. Sanborn of Norway once made shovel handles at Wolfeboro Falls. This was years ago and both are now out of business so I will return to the visiting editors and friends who are cruising the lake in a private yacht which cost the Armstrong Transfer Co. of Boston $17,500.00.

The yacht is now owned by Capt. John Goodhue of Center Harbor and his ten children. This craft has five tons of load on its keel and is doing a good business.

Mother and I kept away from it, but Walter, Mrs. Leavitt and others made two successful voyages and were out in a thunder shower without fatal results. This vessel is known as the "Gilinockie" and is a rakish looking craft embellished with shining brass and a huge smoke stack. Mother contented herself by taking a picture of the pretty boat and merry party leaving the pier. The picture will ever be treasured in the family art gallery as an escape from sea-sickness.

E. M. Tarpy operates the Sheridan House throughout the year and E. M. Wiggin of Lancaster, N. H. drops round occasionally to shake hands with him and greets the good people with a smile and a story of when "I used to run the house."

I met Mr. Wiggin here and he was accompanied by his wife and two children. He occasionally comes to Norway and visits with Bob Seavey of the Beals Tavern and then Bob will go up to Lancaster, N. H. and sample the good things Mr. Wiggin has to offer. I'd like to be a hotel man and be so free and easy and good looking and polite. I can't do it. Am only permitted to write about such people and receive call-downs for misfit compliments. Such is life and may it long continue!

When I found I had the Governor on my hands to entertain—all else had fled—I struck out immediately for Tuftonboro Bay, the summer home of Dr. Henry F. Libby and having previously sent S. O. S. signals, was met in the road near his house by the good doctor.

The Governor was formally turned over to him and was conducted to the Libby Museum and there shown many curious things. Mother and I and Walter trailed at a respectful distance and listened. Here it was demonstrated man might have come from the wolf family and skeletons were exhibited in proof of the assertion; use of the appendix in food assimilation from the wood-eating porcupine to man was shown, also the varying sizes and the doctor expressed the opinion that the appendix of every adult should be removed whether it offended or not. Sins of modern dentistry were shown and illustrated with scathing comments. Roots, herbs and grass, pottery, stone implements and specimens of all the fish but two that inhabit Lake Winnepesaukee were exhibited also birds and reptiles.

All this and much more is matchlessly housed and arranged in an imposing fireproof cement building, the doors of which are never locked day or night.

The greatest curiosity is the doctor with his notions, ideas and plausible theories, permeated with optimistic enthusiasm and love for the work in which he is engaged. Of medium statute, spare of build and nervous temperament, past the half century mark and an interesting worker. He much resembles Dr. Charles A. Stephens of Norway of scientific, literary and biological research work.

I'd like to see the two come together. I'd sit back and listen and wonder what it all meant. It would be more interesting than the preferable Frenchman's Bear Fight to the small boy.

I had the temerity of suggesting such a meeting and said something about "cranks" but not until safely in the car and the engine was working, insuring a quick get-away.

Money coming from stockings and shoes has been lavishly expended on the Ossipee Mountains for the past forty years. B. F. Shaw of Lowell, Mass., of "Shawknit" fame, came first and followed by T. G. Plant of Queen Quality Shoes about ten years ago.

The press members and friends were permitted to go over the park and view the sights from roads and observation towers. There were 18 two horse teams carrying from 2 to 6 in the procession. The start was made at 10:30 a. m. and it required about 3 hours or so to go up the mountains and some 2 hours in returning. At observation points the view was magnificent, extending how far, I dare not say.

Mr. Plant has expended hundreds of thousands of dollars in mountain road building with rustic bridges and paved water ways. He has ponds and brooks in which to fish and thousands of acres for hunting as well as a stone and cement castle on one of the peaks in the range and he owns many farms in the valley with valuable high bred horses, cattle, sheep and swine. He is a big long-distance farmer possessed of miles of beautiful stone walls with an ancient burying ground in his sheep grazed golf link. Modest stone castles made from field rocks guard the approaches to the mountain preserve.

The far famed Ossipee Falls looked different to me than when I last saw them, 45 years ago. They now look twice as high and half as wide as I expected to see. I looked for the bait-box I left there, but did not find it. I was fishing in the falls pool and father was calling for me to quit and come along as night was falling and in my haste I left the box, which once did duty in the family as a snuff-box. I have not seen it since. The boiling spring from which the water comes, remains about the same in size and flow, but the roads and walks are new and native wilderness tamed as are the trout.

It is a wonderful place and well worth seeing, yet it strongly reminds you of Class and Dukedom in the mountain air of New Hampshire, which is unpopular, undemocratic and fudal.

Time was when Wolfeboro had four hotels: Eagle, Pavilion, Glendon and Belleveau and it now has two and one only holds out during the year. Then it was considered the "Maid-of-the-Isle" drew too much water to be serviceable for lake navigation as she was adorned with a screw propeller and that was something new.

Why this drop in hotels, I cannot say. I do know that the Elmwood, as run by Mr. Cronin is a family affair. He does the cooking, his wife runs the office and the children do the rest.

Mrs. Cronin carries a mellow Irish brogue which has been conveyed to the children and her husband got an early start by peddling Pinkham's Newmarket Advertiser on the streets. They have six, eight or ten promising children, some of whom I am informed are successfully beating the bush in the outer world, while the balance are attending school here and running the hotel in the summer time.

Make This Room Yours

Whether you are building a brand new home, making additions to the old one or merely repairing walls, you can have a room like this if you use genuine Beaver Board.

Beaver Board walls and ceilings are more handsome, more substantial and more sanitary than any other kind. They are the easiest walls to build. No lath or plaster—therefore, no litter. Beaver Board always gives satisfaction. But you can't expect Beaver Board results unless this trade-mark is on the back of the board you buy.

A business meeting was held in I. O. O. F. Hall, Saturday evening, July 7. The meeting was well attended, several new members joined the auxiliary and much interest was shown in the work of the organization, which consists of making ambulance and splint pillows, pajamas, and surgical shirts. The auxiliary has purchased about 250 yards of material for making these garments and anyone who is willing to help is invited to meet at the Hall on Monday, Tuesday and Wednesday afternoons for cutting or sewing. The garments may be taken home to make if preferred.

The Woman's Relief Corps Daughters of Rebecca and the Grange have all given liberal contributions towards the work. The town of Albany had donated its unused Memorial Day fund and several individuals have contributed generously. It is hoped that other organizations and individuals will help in the financial part as well as in other ways.

The Red Cross relief work is something in which everyone should share. There is great need already existing, a need which increases with very day of warfare. The fact that our own soldiers are already on their way to the battle front ought to stimulate everyone to greater activity and larger generosity in work which our own boys may soon be needing.

Business meetings are held every two weeks, Saturday evenings at I. O. O. F. Hall.

WHY A PLAYER?

How many times do people say that they'd like to have "life to live over again?" Sort of a foolish wish. What's past is gone and regretting isn't going to bring it back not one inch or one second nearer.

What are the things YOU would like to bring back? Are you sorry you didn't have a musical education? Many people have been so busy doing things, they couldn't exercise their talents much. They found other work to do—more pressing work.

The Playerpiano is for people of that kind—for people who DIDN'T HAVE THE CHANCE—or who wouldn't take it. But—the Playerpiano fills in that gap of things you've wished for. It supplies music to you—BY YOUR OWN EFFORTS—that's maybe better than you would have learned it even if you'd studied and practised.

And it gives you that satisfaction of having a piano in your home. It makes it LIKE OTHER HOMES. It's a lot better than looking into the fire, and wondering WHY you hadn't improved your opportunities a good deal. It's better than a home SILENT for lack of music. It seems as though you'd let more LIGHT into your home and captured it, to feed it out just as your desires tell you to. The PLAYERPIANO is the bridge that connects today with what MIGHT HAVE BEEN in the long ago!

Pianos, Playerpianos and Organs. New music rolls every month. Send for catalogues.

Mrs. Amanda Johnson McIntire

Amanda Johnson was born in the town of Norway, Sept. 17, 1834, being the daughter of Ira and Mary (Towne) Johnson. She was married to Justin E. McIntire, Oct. 24, 1857 and for a number of years they resided in North Norway, but about 45 years ago Mr. McIntire purchased and removed to the farm where he now resides in that part of Waterford which has come to be known as the McIntire Neighborhood. To them two sons were born, Leslie S., who resides on an adjoining farm and Bertrand G., who occupies part of the same house with his father. Mrs. McIntire was an excellent home worker, thrifty, neat, cheerful and hospitable. She was a great lover of flowers and always had some fine specimens about the house or lawn. Though she always resided within a short distance of the place of her birth, she had a large circle of friends and many came long distances, bringing rich floral offerings and many from farther away sent their tribute to her funeral. For some years she has been unable to walk without assistance, but in spite of her infirmity, was quite often in attendance upon grange and preaching service and social gatherings in all of which she took a keen interest and enjoyment. For many weeks past she has been failing and the end came Wednesday morning, July 11, at the age of 84 years, 10 months and 24 days.

Funeral services were held at the home Friday afternoon, Rev. G. W. Sias officiating. She leaves besides her husband, with whom she had completed almost 60 years of married life; a sister, Mrs. Hattie Merrill of Norway; two sons, Leslie E. and Bertrand G.; three grandchildren, Clayton, Glen and Catharine and one great grandchild, Myron, all of Waterford. RESOLUTIONS OF RESPECT.

Whereas our Heavenly Father in his love and mercy has thought best to take from our ranks a beloved sister, a loyal and respected member,

Whereas, although we sincerely mourn the loss of our sister and shall miss her presence in our meetings, we feel that our loss is her gain and that she has passed first to the better land toward which we are all hastening,

Resolved, that we truly sympathize with the daughter and friends of our departed sister and commend her to the loving care of Him who doeth all things well.

Resolved, that a copy of these resolutions be spread upon our records and a copy be sent to the bereaved family of our sister, and also to the Advertiser for publication.

COMMUNITY PLAY FESTIVAL

Friday evening, July 27, at seven o'clock, really marks the opening of the coming Chautauqua. The regular program begins the next day, but the Play Festival is a big free event to start the week with a burst of enthusiasm and to prepare everybody for the gala week. It is a great frolic for everybody—men, women and children. The play leader and the local assistant will be in charge of the frolic and will have interesting events for everybody. Come prepared to enter in. It will be a jolly occasion. There will be old games, new games, ball games, singing games, competitive games, games for the children, games for the young folks, games for the old folks and even games for the grandfathers and the grandmothers. It is surprising how young old folks grow on such occasions. There will be stunts, contests and races. An interesting feature for the children will be a ticket rush. Three season tickets will be the reward for the winners of this event. Come on, youngsters, and win a ticket! Come everybody and help start the Chautauqua off right! This event is better than something to look at; it is something to engage in. Come on and start the blood going again in your veins! Get the glow in your cheeks! Feel again what full round laughter is and what it means to shout yourself hoarse, because you forget yourself in the enthusiasm of the game and to have your side win.

KNOX, BUSINESS LECTURER, COMING

To Speak at Chautauqua

The Chautauqua plans are beginning to assume form

Advertising is being distributed throughout the country about, and it is believed this will be a most delightful and most imortant event in the summer's activities.

Patriotic day, which is the first day of the session, will bring in a great many from outside, and the plans of the management are to make this Patriotic day program one that will long be remembered.

The music of the day, by the Mendelssohn Sexette, will be patriotic in character, and the principal speaker, ex-Governor A. C. Shallenberger of Nebraska, will talk on "The True Patriotism." Mr. Shallenberger will speak at the night session.

Music will be a big feature of the week. A different musical company will appear on each of the five days. These include besides the Mendelssohns, the Boston Musical Entertainers, the Tschaikowsky Quartet, the Royal Blue Hussars Band and the Kaffir Singing Boys.

A big lecture feature of the week is James S Knox, lecturer on business subjects.

Mr. Knox of Cleveland has long been recognized as one of the foremost business experts to be found anywhere. He has sold goods on the road. He has been the head of a successful business. He has met with many of the obstacles the average man in business goes up against. He lost everything in the San Francisco earthquake—and fought his way back. He has twice built from the bottom up. He is no mere theorist. He has practiced the methods he teaches, given them the acid test in his own business and in others and bases his business talks on actual, everyday experience.

Author of Five Books

In the same way his books have been written. He is the author of five books on salesmanship and merchandizing. Not a sales plan went into his books that has not first been proved a success. "Will it sell the goods?" was the test required of each selling plan, and that fact alone determined its worth.

He has addressed hundreds of gatherings of merchants and manufacturers and conventions of sales people. He has spoken to boards of trade, commercial clubs, rotary clubs, ad. clubs and merchants' associations in nearly every city of consequence from the Alleghanies to the Pacific. He has received large fees for these addresses. He made two lecture tours to the Pacific coast in one year and made from two to four addresses a day to business associations and educational institutions. He has talked to the sales forces of large department stores, addressing as many as a thousand clerks in one meeting. He was one of the principal speakers at the recent national meeting of retail merchants.

He has done more than this. In Cleveland he has built up an organization that is training young men and women to be better buyers and better sellers of merchandise. Through his text books he is aiding thousands of public and private school instructors to do in night and vocational schools what he is doing in Cleveland. Thus the influence of his work is not confined to a single community nor to a single country. His methods have been introduced into Canada, France and Japan.

Studies Merchants' Methods

His survey of towns and counties has brought him into intimate touch with scores and hundreds of communities and given him a better insight into the business life of the average city and town than anything else. These are conducted with the assistance of one or more trained investigators from his plant in Cleveland. They have gone into the homes and talked to housewives about the methods of merchants, about this store and that, why do you trade here or there instead of over yonder, why do you buy from mail order houses instead of at home. Such questions as these they have asked and received the answers direct. So conclusions he has made are not based on rumor or on theory or anything of that kind, but solely on the facts as they exist. And, of course, you know that conditions are the same in the main in one town as in another.

Mr. Knox is a man of strong and dominating personality and is right in his prime. He believes that the purpose of a town or city is to serve itself and its trade territory, and in his Chautauqua address he shows how this can best be done. He believes further that the fundamentals of community building are organization, co-operation, loyalty and efficiency. The same qualities are needed in the building of a business. He shows how these things can be developed and put into play.

His address will stimulate greater interest in business efficiency. Its value will depend in large part on the efforts made by the men of the community to make his coming an event of importance and get all out of it that's in it. He spoke to the chamber of commerce at Oneider, N Y., not long ago, and the Syracuse Herald, which had made a full report of his talk, said some weeks later, "Some of the more modern movements which may be attributed in large measure to Mr. Knox's address are the agitation in favor of the city agent and the move to secure better roads to divert country trade into the channels of the city." And can any one estimate what this would be worth to a city like Oneida?

The season tickets will sell for $2. These will admit to all the ten sessions.

They can be procured through any member of the Chautauqua association.

Fred Smith's new cottage home on Main street is progressing rapidly and will be nearly ready for occupancy the first of September. Alton Bacon of Bryant's Pond is the contractor and builder.

Bert Allen and family from Danvers, Mass. arrived Saturday for a stay at Bass Island. Mr. Cook and family from the same town are in the party.

Black Bear Killed Near West Bethel

A fishing trip that wound up with a bear hunt was the exciting experience of a 4th of July party near Mains Mountain, West Bethel.

Frank F. Hunt of Norway and Lloyd Luxton, Irene Morrill and Maud Luxton, all of West Bethel made up a fishing party that passed the Fourth on Mains Pond. A little after 5 the anglers had gathered up their outfit and started for West Bethel village when one spied a large black bear a short distance up the side of Mains Mountain calmly surveying the intruders.

No firearms were handy so Luxton hurried to a farm house some distance away while the other members kept tabs on the ugly looking gentleman. The he bear sensed trouble so decided to make himself scarce, but couldn't sneak away from the eagle eyed watchers below.

When Lloyd returned he was given the cue and after skillful maneuvering drew a bead on the fugitive for a safe hit. The hunters got the valuable carcass out and found he weighed 335 pounds. After being dressed 241 pounds were recorded. The pelt measured 7 feet from tip to tip; was 55 inches across the front legs; 53 inches through the back and 58 inches across the hind quarters. The meat and pelt were sent to Boston and a good sum in payment is anticipated. A $5 state bounty will be received after the usual red tape is unwound.

This little excitement undoubtedly proved the most unique celebration about these parts, and the party would gladly fish every day provided so easy picking drifted across their path as old bruin.

SWEDEN

Whitehouse Reunion

The Whitehouse Reunion was held at the old home in Sweden, July 4th. It seemed the day was made on purpose for the gathering of the brothers and sisters, once more at the old homestead. Not many families can boast of an unbroken chain of brothers and sisters, the youngest nearly fifty and the oldest seventy years of age.

There have been many gatherings of the family before, but none so frought with joy and pleasure as this one. To think they should all be able to meet together again after many years' separation seemed too good to be true.

Mrs. Frank Chadbourne, the 4th child, who is the present owner of the farm, came with her husband and two sisters, Mrs. O. V. Edwards and Mrs. G. S. Marr of South Bridgton went to Sweden the 3rd and spent the night there so to have everything in readiness for the following day. There are seven brothers and sisters as follows: C. C. Whitehouse, H. A. Whitehouse, Mrs. O. V. Edwards, Mrs. F. O. Chadbourne, North Bridgton; Mrs. E. K. Shedd, North Waterford; Mrs. C. E. Jones, Lovell and Mrs. G. S. Marr, North Bridgton. Other relatives present were Mrs. C. P. Whitehouse, Byron Whitehouse, wife and son Floyd, Elden Whitehouse and two sons, Lincoln and Claud, North Bridgton, Edna and Isla Smart, C. E. Jones, Sweden, F. O. Chadbourne, North Bridgton.

It was given out as a basket picnic, but it seemed all must have brought food in bushel baskets. Soon after the last arrival tables were constructed. Byron Whitehouse, born carpenter. The tables were laid in the shade of the 'Old land mark'' a tall Hacmetac tree, that must date its birth, more than a hundred years back, and still it seems to grow and flourish. It can be seen from many miles around. It was the finest display of the cullinery art we have ever seen, far surpassing all other picnic dinners set before a hungry company. Sandwiches of all kinds, pies and cakes of every description one table being wholly devoted to pies, eggs, fried, boiled, baked, stuffed, and in salads. Flesh and fish, cheese, four kinds, including cottage. We counted seven kinds of pies. There were boxes, baskets and bags of fruit and confectionery, A number of boxes were made up and sent to absent friends.

Pictures were taken of the group about the tables "before and after," also of the seven brothers and sisters in a group beside the house, with a back ground of roses, for which the place is famous.

The afternoon was supposed to be passed in literary exercises, singing, etc., but the writer was obliged to leave early in the afternoon so cannot say how long they tarried, but each and every one went away well pleased with their day of meeting and greeting of dear ones. Though with a feeling of sadness at leaving the old home again all alone, but with the hopes of another reunion in the near future at the same place.

A FRIEND'S ADVICE

Woman Saved From a Serious Surgical Operation.

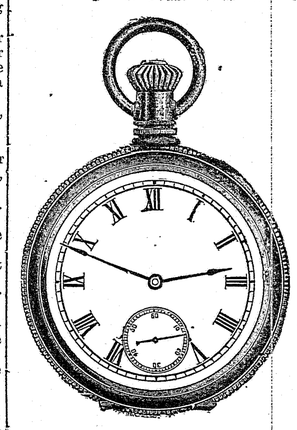

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness. I could not sleep, had no appetite and it hurt me to walk. If I tried to do any work, I would have to lie down before it was finished. The doctors said I would have to be operated on and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like a new woman. I am well and strong, do all my own house work and have an eight pound baby girl. I know Lydia E. Pinkham's Vegetable Compound saved me from an operation which every woman dreads."—Mrs. NELLIE FISHBACK, 1521 Christy Ave., Louisville, Ky.

Everyone naturally dreads the surgeon's knife. Sometimes nothing else will do, but many times Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary.

If you have any symptom about which you would like to know, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.
